SATELLITE DISHES

It has been noticed on many site inspections that more satellite dishes are being installed without architectural approval. The association's rules and regulations are specific and state:

Satellite Dishes: **MUST BE PRE-APPROVED** in writing BY THE BOARD OF DIRECTORS. Satellite dishes first require an approved Architectural Request Form and a \$75.00 deposit. No satellite dish or antenna or any other apparatus may be installed upon any walls, roof, attic or crawl space. Satellites must be strategically placed on the fascia board only and the owner must first have written architectural approval. Improper installation will result in the removal of the dish at the owner's expense. The Association will have FIOS available in late 2011. We will also be having a painting project in the community at which time all satellite dishes will be required to be removed. At that time you may choose to transfer to FIOS or you may reapply for Architectural approval from the Board. If you are a homeowner leasing your unit to a tenant: You are responsible for any satellite dishes left behind after your tenant leaves the unit a fine of \$100 will be assessed for each satellite dish left behind. Each homeowner has the right to refuse tenants from installing these dishes. You may stipulate in your lease that only cable or FIOS is allowed in your unit. The HOA Board of Directors reserves the final decision on all satellite dish approvals and location of installation.

Management will be checking for architectural approval on file for satellite dishes. Should it be discovered that no approval is on file, you will be notified directly by receiving a violation notice with form which will need to be submitted along with \$75.00 by the date on the notice or the satellite dish will be removed and charged back to the owner.
